Amazing Khadas, Always Amazes You!

KHADAS

KHADAS BRAND

Khadas brand is owned by Khadas Technology Co., Ltd and caters to the global market for high-tech trendy products. Our products are sold worldwide to both individuals and businesses.

Our brand covers single board computers, high-end audio products, consumer computing equipment, and specialised solutions for industry and big business. More products will be added soon.

Khadas products have even been used by industry titans. For example, the Khadas VIM3 has been used by the Google Fuchsia team to develop products for the artificial intelligence market.

Khadas always aims to revolutionise the industry. Our latest product the Khadas Tone2 Pro uses a new patented technology called Balanced RCA, redefining the RCA connector to a 3-pin standard.

In 2023, Khadas will release 'Mind'. Mind will be a next-gen poly-PC designed to flow with your life. Use it as a desktop, an online conferencing/collaboration tool, a mobile-micro-server/database, and more!

* 'poly': "polymorphic", always morphing to suit your situation

OUR MISSION

Khadas was incorporated in 2016, and got its name from the Tibetan word “khata”, a high quality silk fabric necessary for Tibetan and Mongolian social etiquette to convey respect and gratitude.

Khadas is a mission to create innovative products that will serve the Maker community and the world, thus was born our famous brand motto: "Amazing Khadas, Always Amazes You!".

Think different, act different, be different, and make a difference. Khadas develops superior quality, high performance trendy products for Makers, Developers, and Dreamers.

Khadas' new range of audio products is intended to inspire and impress users with high-fidelity, crystal clear sound. Music feeds the soul, and at Khadas we believe that our products should do just that.

KHADAS

“Amazing Khadas, Always Amazes You!”

Develop trendy and inspiring products that give users a feeling of “niubility”!

KHADAS TEAM

KHADAS COMMUNITY COMPETITION 2021

Khadas is committed to nurturing an open source community of mutual help and sharing. It is with this spirit in mind, that we want to give back to all the participants who have contributed to our community, by organizing the first-ever “Khadas Community Competition”.

The purpose of holding this competition is to first allow those who have already contributed a chance to participate and win generous prizes, and secondly to encourage more people to share their own experience and code, and make progress together with the Khadas Open Source Community.

OWOW

SOFTWARE SUPPORT

KHADAS

OOWOW: EMBEDDED SERVICE

WHAT IS OOWOW?

OOWOW is an embedded service (integrated into your device) - it can be run any time if you need to perform essential maintenance services on your device.

SUPER-FAST OS INSTALLATION

OOWOW provides rapid online OS download and installation, which will improve quality of life for single board computer users - with OOWOW, you can install / reinstall your preferred OS in just 2-3 minutes.

EMBEDDED INTO VIM4

VIM4 is the first device from Khadas that includes the OOWOW embedded service.

Since VIM4 comes without any pre-installed OS, users can use OOWOW to select and install the preferred OS.

GUIDED BY A WIZARD

The OOWOW wizard will guide you to install a new OS in just 4 steps, and it automatically starts if your device storage is empty.

FENIX: A ONE STOP SOLUTION

What Is Fenix?

Fenix is a one-stop script set to build Ubuntu/Debian images.

Features:

- Easy to use, one-click compilation of Ubuntu/Debian images
- Supports all Khadas SBCs
- Supports CI (Continuous integration)
- Supports compiling under Docker
